

HAZLETON RIOTS.

Representative Danford Calls Attention to the Fact That

ALL VICTIMS WERE FOREIGNERS

And One of the Lessons to be Learned is the Importance of Restricted Immigration—Talks of Congressman Danford's Bill The Congressman Returns Home After a Brief Trip to the Capitol, where He Saw the President.

Congressman Danford, of the over-the-river district, returned from Washington City yesterday morning after spending a couple of days in the capital city. He called upon President McKinley while there, and his position as chairman of the house committee on immigration, a distinction he won by services rendered in behalf of the bill which passed, but was vetoed by President Cleveland, caused him to be hunted up by a Washington correspondent to discuss the probable legislation on this subject the coming winter.

The coal miners strike brought the subject of immigration prominently to view again and some of the leaders recognize in proper restrictions one of the best helps to that class of labor, as was clearly demonstrated by Secretary Pearce, of the United Mine Workers, in an address in the early stages of the recent strike, when in giving the remedies for existing labor trouble in this country, placed the "suspension of all immigration" as the first and foremost in importance.

Captain Danford is quoted as saying: "The Hazleton riots will undoubtedly lead to a renewal of the agitation for a more rigid system of immigration, which naturalization laws. Nothing was done, of course, at the extra session, but next winter it is likely that several bills having for their purpose the correction of certain defects in the immigration system, will be introduced and I expect Congress to take up the matter and consider it fully."

"A great deal of severe criticism is being directed at the sheriff, who ordered the deputies to fire upon the striking miners. However, a complete investigation may bring out facts which will have an important bearing on the attitude of that official. One thing that I know is this. Everyone of the dead strikers is a foreigner, and so far as I can learn few, if any of them, were naturalized. The Hazleton killing may probably be investigated by Congress. You will remember that a somewhat similar investigation was conducted to get the facts in the Homestead troubles. Pennsylvania is more deeply interested in the immigration question than any other state in the union. Colonel Stone's bill to remedy defects in the immigration laws attracted wide attention and received careful consideration by the house committee on immigration. I have no doubt that some of the Pennsylvania members will introduce measures of the same kind at the coming session."

THE RAILROADS.

A large party of prominent Baltimore & Ohio officials are making a traffic inspection trip over the lines from Chicago to Fairport, Cleveland, Pittsburgh, Wheeling, Cumberland and back to Baltimore. In the party is Receiver Oscar G. Murray, General Manager M. W. Green, Freight Traffic Manager C. S. Wright, Coal Traffic Manager J. A. Murray, L. R. Brockebrough, general freight agent at Pittsburgh; General Superintendent J. M. Graham of the lines west of the Ohio river; J. H. Maddy, press agent, and George Randolph, formerly general traffic manager of the Baltimore & Ohio Southwestern and who, on October 1, will become the Baltimore & Ohio's representative on the board of managers of the joint traffic association.

Asked about the likelihood of his succeeding Mr. Bacon as president of the Baltimore & Ohio Southwestern, Mr. Murray said: "Mr. Bacon is still president of that company and will remain in that position as long as he desires. I have no knowledge of any intention on his part to retire, and my trip west has no connection with Baltimore & Ohio Southwestern affairs beyond the usual matters that are constantly coming up between lines, whose relations are as intimate as those that exist between the Baltimore & Ohio and the Baltimore & Ohio Southwestern."

George F. Randolph, who on October 1 will succeed Orlando Smith on the board of managers, is considered one of the ablest traffic men in the country and is only another instance of the fact that Receiver Murray is surrounding himself with some of the brightest railroad officials to be secured. Mr. Randolph, besides representing the Baltimore & Ohio in the joint traffic association will also represent the Baltimore & Ohio Southwestern, the Cleveland Terminal and Valley and the Pittsburgh & Western roads.

Mr. Randolph has been in the railroad business since 1873, when he entered it as a clerk, and is now only 41 years of age. He has held innumerable positions on roads in different parts of the country, always working a step higher with each change. For several years he was general traffic manager of the New York & New England, and was made general traffic manager of the Baltimore & Ohio Southwestern in 1896, which position he now leaves to go to the joint traffic association.

ANOTHER OUTBREAK

Of Hostilities Between the City and Mr. J. Cotts Yesterday.

Yesterday morning there was another outbreak of hostilities between the city authorities and Mr. W. J. Cotts, the North End man who has kept Chief Bennett, street commissioner, city collector, city clerk and other municipal officials busy for some time. Mr. Cotts erected a cheap \$x10 structure on his lot at the corner of Baker and McCulloch streets, East End, Tuesday night and early yesterday morning proceeded to build a platform in the street where there is no curb line. At the instance of Clerk Hornish, of the board of public works, he was arrested and placed in the lock-up. Here he declared to Chief Bennett that he would do divers things before he would ask for release, but he evidently changed his views, for before noon he was released when Colonel Robert White agreed to be responsible for Cotts' appearance in police court this morning. The case will probably attract a large audience in the municipal tribunal.

"My boy came home from school one day with his hand badly lacerated and bleeding, and suffering great pain," says Mr. E. J. Schall, with Meyer Bros. Drug Co., St. Louis, Mo. "I dressed the wound and applied Chamberlain's Pain Balm freely. All pain ceased, and in a remarkably short time it healed without leaving a scar. For wounds, sprains, swellings and rheumatism I know of no medicine or prescription equal to it. I consider it a household necessity." The 25 and 50 cent sizes for sale by druggists.

ANOTHER MILL

Laughlin Company will Enlarge Its Present

PRODUCTION OF TIN PLATE.

An Offer is Said to Have Been Received From Another Town, but the Company is Disposed to Remain at Martin's Ferry. A Free Site Will Probably be Asked For. A Manufacturer on the Increased Local Production of Tin Plate.

Martin's Ferry people are discussing the apparent probability of the erection of an additional tin plate mill plant by the Laughlin company in the northern part of that town. From many signs recently in evidence it is believed that the Laughlin officials will soon make overtures for the acquisition of property on which to erect a large tin plate mill.

The success of the LaBelle, Aetna-Standard and Laughlin companies in their tin plate ventures, all since the enactment of the McKinley law several years ago, has been pronounced. Both the LaBelle and Aetna-Standard companies have increased their tin plate facilities, a large addition to the plant of the LaBelle now being in progress of erection.

So it is not surprising that the Laughlin people are preparing to enlarge their tin plate production. It is said that the company will soon ask certain concessions of the city and citizens of Martin's Ferry, in the way of acquisition of the property needed, and that a duplicate of the present tin plate plant will be built south of the present works at a cost of \$200,000. The present plant is made up of twelve mills, six cold roll and six hot roll, together with annealing furnaces, picklers, etc. It is intimated that the Laughlin has received a flattering offer to establish a tin plate mill elsewhere, but that with anything approaching equal inducements at Martin's Ferry the business will not be cut up in two places.

The increased tin plate production in the Wheeling district is in line with what a well known iron and steel manufacturer said to an Intelligencer reporter the other day. Said he:

"With the big consolidated iron and steel corporations, like the Carnegie, Rockefeller and the Illinois Steel Company, the constant effort to get out a big tonnage, and not so much attention is paid to the smaller products. So we see the smaller establishments giving up to a certain degree the big product and paying more attention to the smaller and tin plate is an instance right here in the Wheeling district. This is a product that will constantly increase its output in this section."

The growth of the Laughlin confirms this statement.

WESLEY ENTERTAINMENT.

The final rehearsal for "The Life and Times of John Wesley" was held last evening in the Opera House, and those who witnessed it say that there is a bright promise of an enjoyable evening's entertainment to-night, when the first performance of the two will be given. SOCIETY.

T. MATTHEWS' P. E. church ladies will figure this afternoon and evening as hostesses to the public in a function termed "The County Fair," which is to be given on the beautiful grounds that surround the country home of Mr. and Mrs. Frank J. Hearne, "Hearne-lee," at Leatherwood, out the pike east of the city. Elaborate preparations have been made for the event, and it is predicted that it will be a brilliant success financially, as well as from the viewpoint of artistic success.

The committee on arrangements, composed of Mesdames Holloway, Aschman, Arnett, Hearne and Taney and Miss Gussie Wright, has everything in readiness for the opening of the gates at 4 o'clock this afternoon and the festivities will continue until 11 o'clock to-night. The amusement committee has worked hard and will introduce a number of specialties, some of which would make Nell Burgess turn green with envy and induce him to write another "County Fair."

Attractively decorated booths, well stocked with ready selling articles of all kinds will dot the grounds, and at night the scene will be a beautiful one, with hundreds of vari-colored lights adding to the effect. One of the features will be a "dusty road" booth; in this instance there is much of mystery which cannot be unravelled in this morning's Intelligencer. To become enlightened one must be on the spot. The committee in charge of this booth is composed of Mrs. Charles Hughes, Miss De Vries, Mr. Charles Ott and Mr. Samuel Hazlett.

An additional committee, announced yesterday, is that on refreshments, Mrs. Andrew Patterson, Miss Ida Updegraff and Miss Mamie Patterson.

The other committees are as follows: Supper committee—Mesdames S. P. Morton, M. T. Carr, George K. Wheat, Bachman, Rensdort, James Nell, Joseph Speidel, William Schwertfeger, Andrew Patterson, J. K. Mrs. Drennon, assisted by her daughter, Miss Lenore, will give a reception this evening to a number of their friends at their home on West Walnut street, Martin's Ferry.

A quiet wedding took place yesterday morning at St. Mary's Catholic church, Martin's Ferry. The happy participants were Mr. Francis Neubauer and Mrs. Annie Glenn, of Clark's addition. Rev. Father Mattingly officiated. The attendants were Will Mullen and Will Ryan.

Direct application to the seat of disease is the only rational way, and this is fully accomplished by the Pyramid Pile Cure.

A JOYFUL MOTHER OF CHILDREN.

Mrs. Pinkham Declares that in the Light of Modern Science no Woman Need Despair.

There are many curable causes for sterility in women. One of the most common is general debility, accompanied by a peculiar condition of the blood.

Care and tonic treatment of the female organs relieve more cases of supposed incurable barrenness than any other known method. This is why Lydia E. Pinkham's Vegetable Compound has effected so many cures; its tonic properties are directed especially to the nerves which supply the uterine system. Among other causes for sterility or barrenness are displacements of the womb. These displacements are caused by lack of strength in the ligaments supporting the womb and the ovaries; restore these, and the difficulty ceases. Here, again, the Vegetable Compound works wonders. See Mrs. Lytle's letter, which follows in this column. Go to the root of the matter, restore the strength of the nerves and the tone of the parts, and nature will do the rest. Nature has no better ally than this Compound, made of her own healing and restoring herbs.

Write freely and fully to Mrs. Pinkham. Her address is Lynn, Mass. She will tell you, free of charge, the cause of your trouble and what course to take. Believe me, under right conditions, you have a fair chance to become the joyful mother of children. The woman whose letter is here published certainly thinks so:

"I am more than proud of Lydia E. Pinkham's Vegetable Compound, and cannot find words to express the good it has done me. I was troubled very badly with the leucorrhoea and severe womb pains. From the time I was married, in 1882, until last year, I was under the doctor's care. We had no children. I have had nearly every doctor in Jersey City, and have been to Belvidere Hospital, but all to no avail. I saw Mrs. Pinkham's advertisement in the paper, and have used five bottles of her medicine. It has done more for me than all the doctors I ever had. It has stopped my pains and has brought me a fine little girl. I have been well ever since my baby was born. I heartily recommend Mrs. Pinkham's medicine to all women suffering from sterility."—Mrs. LUCY LYTLE, 255 Henderson St., Jersey City, N. J.

MARYLAND REPUBLICANS

Have a Tough Fight on Hand on Account of Internecine Quarrels.

BALTIMORE, Md., Sept. 15.—The Republican state convention adjourned from Ocean City from August 16, reassembled in Raines' hall, this city, to-day for the purpose of completing the work begun at the previous session. In the interim many things have happened that may materially alter the political situation in Maryland and render the outcome of the elections in November more doubtful than ever.

Senator Wellington, former head of the Republican machine, has been deposed after a bitter factional fight, the colored element, which composes more than a third of the voting strength in the state, has become disaffected and threaten to bolt the Republican party in a body and unless the present convention strikes a very harmonious note among many discordant elements the Republicans are likely to go into the campaign with a hot internecine war on their hands.

The convention nominated by acclamation Philip I. Goldsborough for comptroller and General Allen Rutherford for clerk of the court of appeals.

State Senator Norman B. Scott was elected chairman to succeed United States Senator Wellington, who, it is understood, will take no part in the coming campaign.
